About This Game

Alien Breed™ 3: Descent is the final explosive chapter in the Alien Breed™ series, and is a science fiction arcade-shooter with an epic story, swarms of highly intelligent alien enemies, high-impact weapons and stunning environments, developed using Epic Games' Unreal® Engine 3. Descend into hell and once again take control of the hero, Conrad, the ship's Chief Engineer, in his last stand against the savage alien horde. While the doomed vessel, the Leopold, and the alien space craft plunge deeper into the planet's atmosphere, with an icy ocean promising a watery grave, you have just hours to defy a grisly death and survive the alien onslaught for the final time. As you struggle deeper into the sinking alien ship, through the freezing waters flooding every corridor, the horrifying truth surrounding the existence of the Breed is finally uncovered... In addition to the thrilling conclusion to the single-player campaign and the relentless and competitive "Survivor" modes, the game offers action-packed, two-player online co-operative battle modes.

Such a great soundtrack!

One must experience it by him(her)self to understand what I'm talking about. :)

A beautiful exploration game with a very nice soundtrack!

My favorite one: Wakening Lands

<https://www.youtube.com/watch?v=CI3BLjBSmWw>. My friend told me to give it a try.

[Mark, if you a reading this - I hate you. Great puzzle game. Chill solitaire game. Very casual. Lots of special abilities to unlock that gives you different ways to play the game, and you are limited to four abilities at once. This means you can cater to your style of gaming. Nothing to brag about for graphics or sound, but the game is solid. Definitely recommended if you like casual card games.. I can tell a lot of work went into this game; I worry it went into the wrong places, for example: there's a detailed car-customizing option \(20+ horn sounds!\) and tons of characters to unlock, but the UI looks like it's only half-done, the soundtrack is uninteresting, the death transition isn't complete, the track geometry is hard to read...](#)

[I realize this was a project by a small team, but if you want a whacky racer, and don't have a Nintendo system, All-Star Fruit Racing is not the answer, it doesn't look done; it doesn't FEEL good, get one the Sonic racing games, instead, Sonic & All-Stars Racing Transformed is excellent, and they're coming out with a new one in late 2018/early 2019.. i think this was worth it, you learned a lot about alexander and some of the battles he went through.](#)

Did a lets play on this game, It is a lota fun however I feel it lacks pacing.

To be scary there needs to be a level of tension, which there is... for the first 2 floors then after that its just predictable jump scares.

Dont get me wrong I liked the unique design and idea, just maybe needed a bit more pacing.. This is qutie an improvement from the old maerdy dlc.

this is my experience with the dlc engines.

the battery loco is quite, and powerful powerful, but not very fast; perfect for work in claustrophobic environments, and dock yards.

the saddle tankengine is better than before, with fantastic physics, and the wheels stop spinning, and slip when you apply the breaks, and slippery situation. over all the engines are great.. Instead of buying this - flush your money down the toilet, it will be more fun to watch it swirl around.. The direction controls for combat on this are frustrating; they leave you vulnerable and often facing away from your target. The jump and climb mechanic isn't very fluid and requires you to spend a second up against the location before it can trigger. The missions follow a pattern of get a MacGuffin needed to get access to the other MacGuffin you needed to get past the level. I lost interest after about 20 minutes.. the game is geting better but still has some flaws it's fun for a little bit i like playing it will netfilx on so i dont get bored the game is worth the price tho. "Pretentious game" in a nutshell. Slightly better visuals will rip your eyes off due to being written in flash, so no texture filtering. Narrator's voice is unbearable, like a whiny teen shares his unique and so original love story. Meh.
