I have an X5.11R and I am trying to update it's firmware. I have downloaded the Win7 32bit version and installed it using AVI software. When I try to update it it always get stuck on step 5 and It won't let me leave until I wait an hour. Is there a way to fix this? I have a Eleven Rack and everything is fine with the exception of the rack, it is red. I have tried switching the AUX3 switch to output and that has fixed the problem but I cannot tell if it was simply that I had the AUX3 switch to output the wrong thing.
